

Say Cheese!

Say Cheese!

A fun mini quilt that can easily be turned into a pillow. Won't this camera look cool on a wall in your sewing room or on your favorite chair?

Size: 20 x 20 inch

Say Cheeese!

Say Cheeese! is a fun little quilt that can easily be turned into a pillow. The camera block measures 18 x 18 inch finished, with a 1 inch sashing the mini quilt will be 20 x 20 inch.

Are you going to hang it on your wall as a mini quilt? Or turn it into a pillow?

In this pattern you will find the fabric requirements for the mini quilt, the printing instructions for the pattern and instructions on how to assemble the block and the mini quilt.

Foundation Paper Piecing

This pattern is a Foundation Paper Piecing (FPP) pattern. Want to become more confident in FPP with freezer paper, normal printing paper and tea bag paper? Take a look at my [online course on FPP](#).

Fabric Requirements

Here is what you need to make the teal camera with yellow and green accents.

- Camera + binding Tring-a-ling in dark teal 1/2 yd
- Camera Say Cheese in teal 1 FQ
- Flash Happy Quilting in Yellow 1 FE
- Lens Bubblebath in green 1 FE
- Lens Superior Solids 1 FE
- Background Dot dot in green/teal 1/2 yd

And here are the fabric requirements for the purple camera

- Camera + binding Mail day in purple 1/2 yd
- Camera Say Cheese in purple 1 FQ
- Flash Happy Quilting in Yellow 1 FE
- Lens Brushes in pink 1 FE
- Lens Superior Solids 1 FE
- Background Dot dot in orange/pink 1/2 yard

For the **backing** of the quilt you will need 3/4 yd of fabric. I used the 'Say Cheese' Fabric for this.

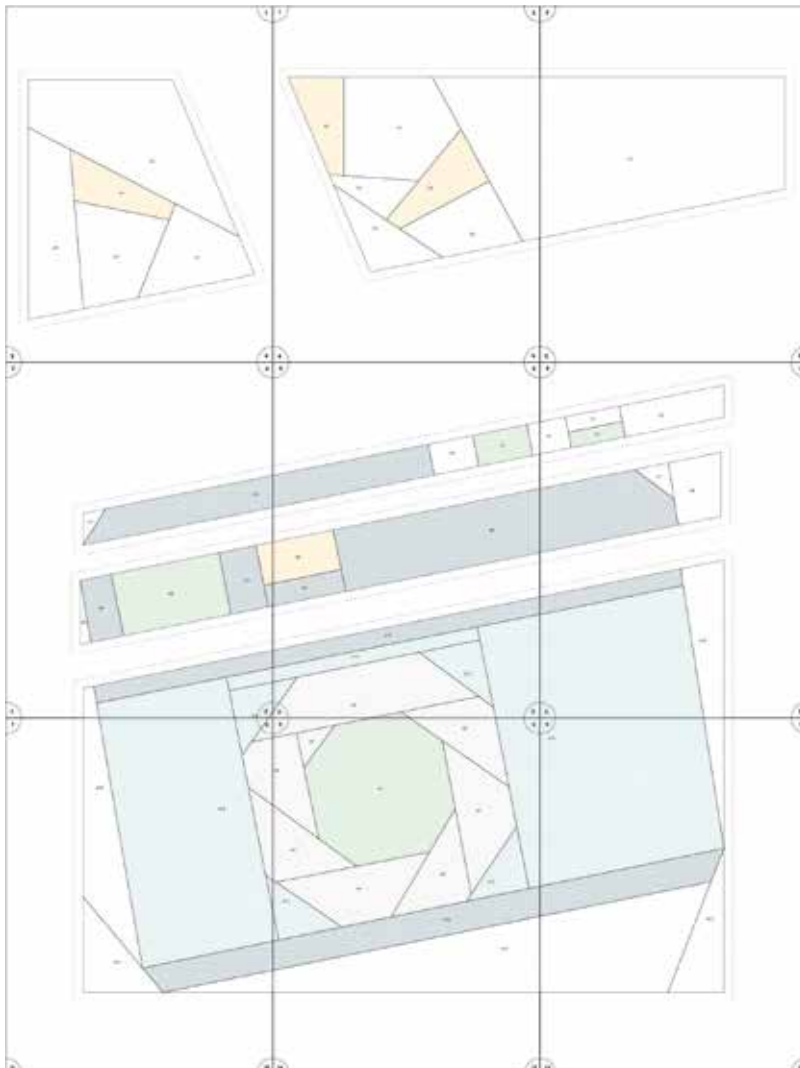

Strips

Cut two 1 1/2 x 18 1/2 inch strips and two 1 1/2 x 20 1/2 inch strips from the background fabric for sashing around your quilt block before you start on the camera block.

The Pattern

The Say Cheese pattern is a FPP pattern. The complete pattern consists of nine pages. When printing the pattern keep these things in mind:

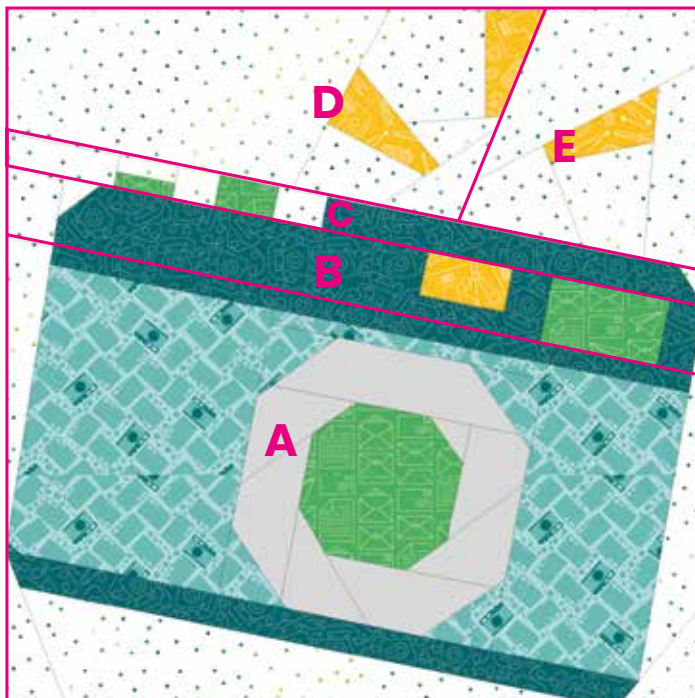

- Print the pattern true to size. Choose 'no scaling' or '100%' in your printer settings.
- Check the 1 inch box on the first page of the pattern to see if you're printing the pattern to the correct size.
- Paste you pattern pieces together following the schematic below.
- A FPP pattern always is the mirrored image of the end result.

Assambling the quilt

Start with sewing all the sections of the block. Then assemble the block by joining the 2 pieces for the flash (section E and section D).

Then you can sew the camera block together from top to bottom. Section ED to C to B to A.

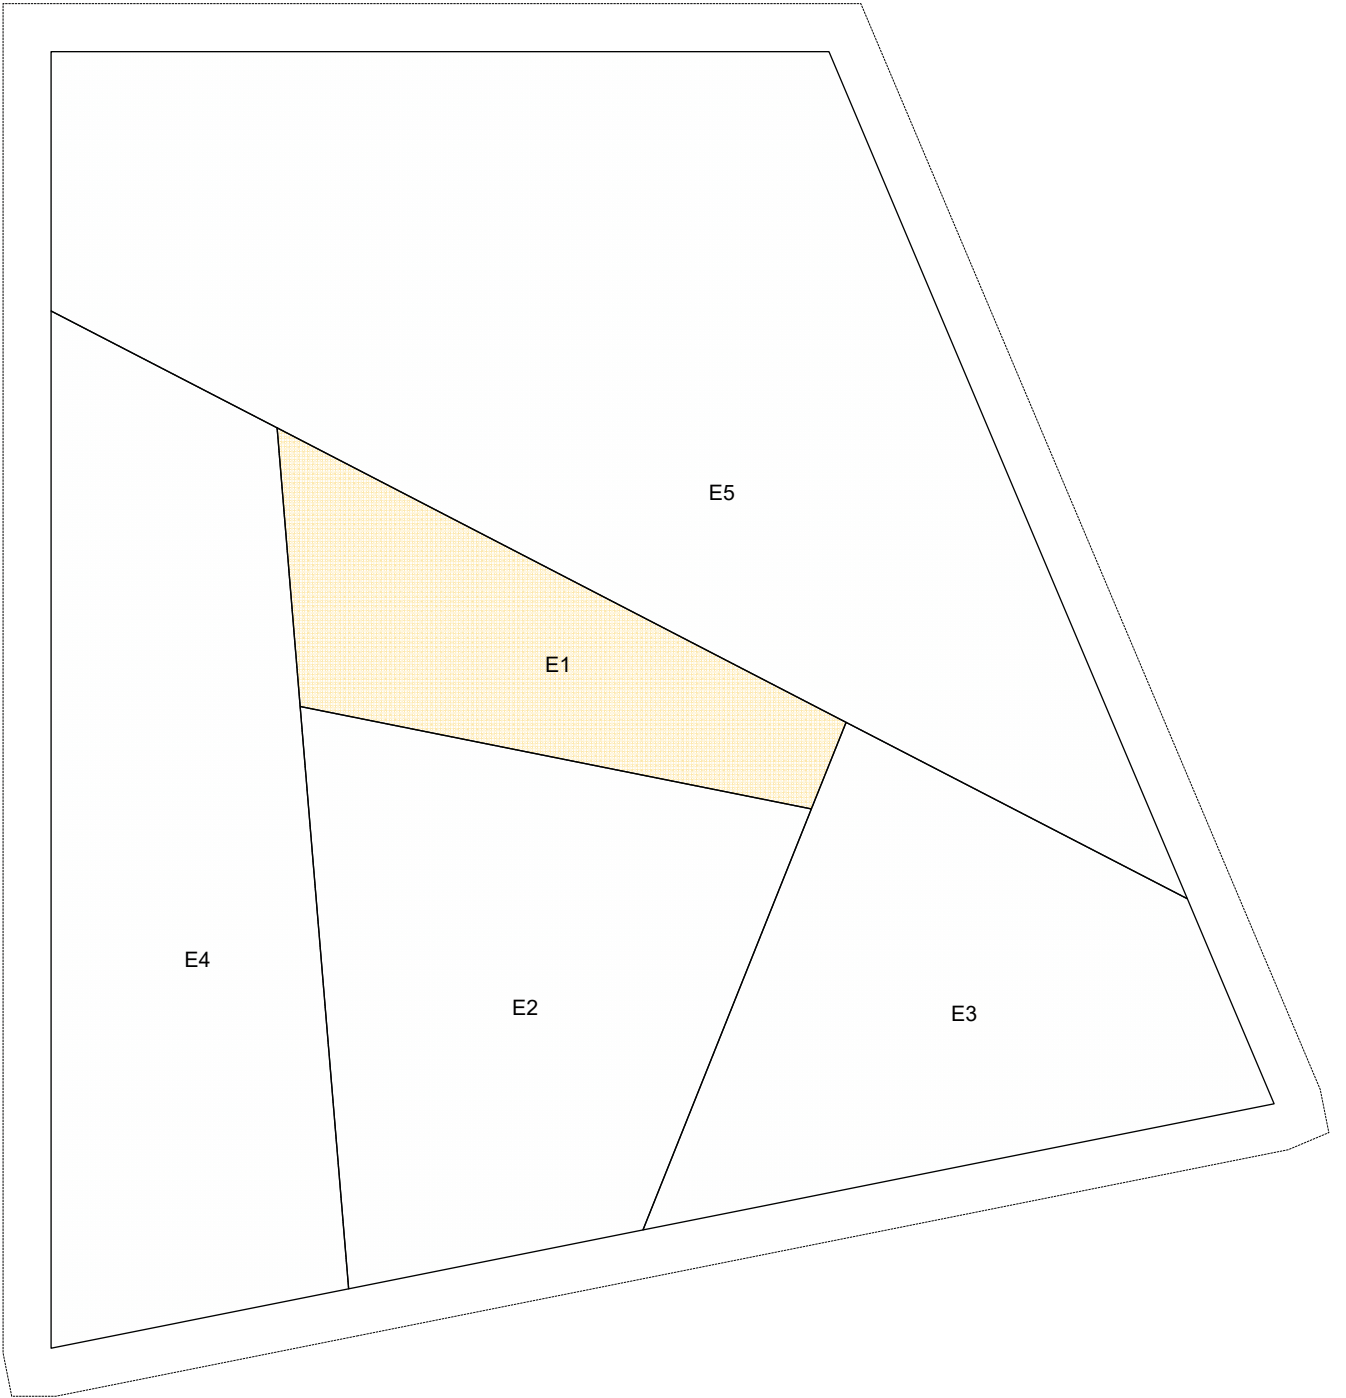

This will give you a 18 x 18 inch block (18 1/2 x 18 1/2 inch including seam allowance).

Sew the 18 1/2 x 1 1/2 inch strips to the sides and sew to 20 1/2 x 1 1/2 inch strips to the top and bottom of the block to complete the mini quilt top.

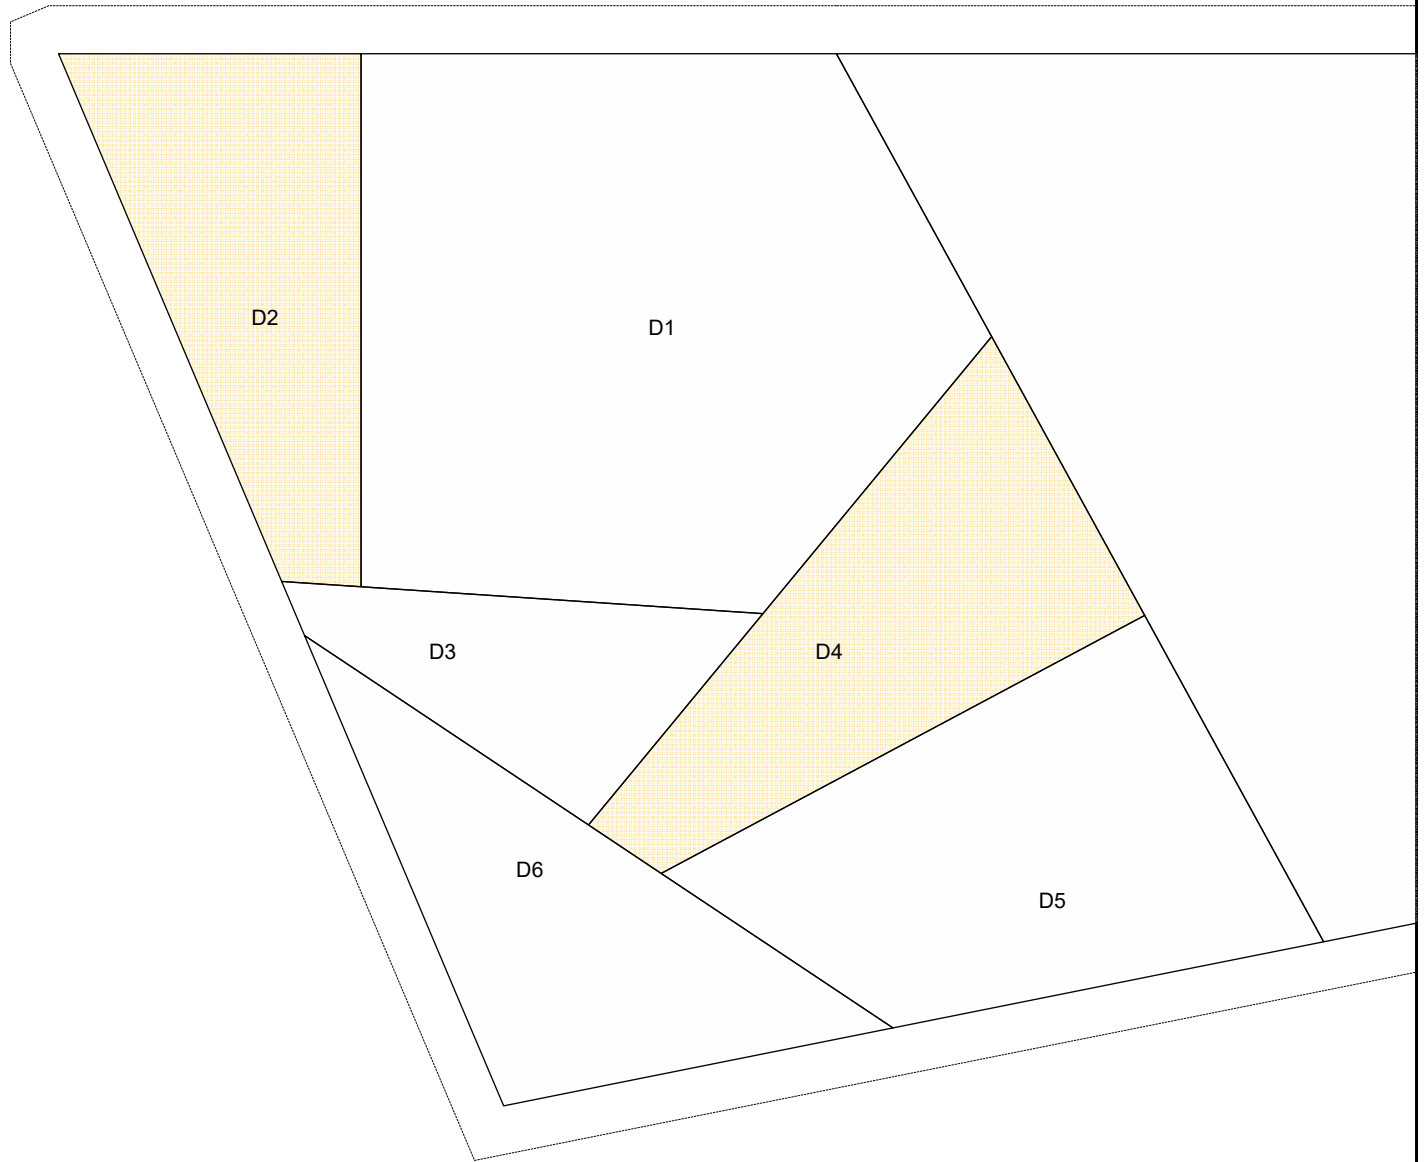

This square
measures
1x1 inch
